THE BOSTON CONSERVATORY OF MUSIC was founded in 1867 by the eminent musician, Julius Eichberg, a graduate of the Conservatory of Brussels with first prizes in violin and composition. After serving for a number of years as professor at the Geneva Conservatory, he came to Boston in 1859 to become director of the Museum Concerts, a position he held until 1866. Under his leadership the Conservatory gained a standing among the leading music schools and attracted students from all parts of the country. Herman P. Chelius, widely known pianist and organist, succeeded Mr. Eichberg as director in 1893. The Conservatory was first incorporated under the laws of Massachusetts in 1896. There followed several unsettled years during which reorganizations were effected in 1905, 1914, and 1920. In 1920, Agide Jacchia, then conductor of the "Pops" Concerts of the Boston Symphony Orchestra, became director. Mr. Jacchia's knowledge and wide experience proved of inestimable value in re-establishing the prestige of the school. He continued as director until his death in 1932. The following year Albert Alphin became head of the school.

Mr. Alphin received his musical training at the Boston Conservatory and had served as a member of the faculty from 1923 to 1927. As director of the Conservatory his first step was to reorganize the school as a non-profit-making institution. The school acquired its first permanent building on the Fenway in 1936. Three more buildings were added for school and dormitory purposes between the years of 1938 and 1942. In the spring of 1949 the construction of a new building was completed which provides additional classroom space and unexcelled studios and facilities for the drama and dance departments. The Concert Room, the Recital Hall, each seating approximately 135, and the Auditorium which seats over 500, afford ample opportunity for recitals, concerts, opera, dance programs and dramatic presentations.

The Conservatory buildings, including the dormitories, are located on The Fenway, facing one of Boston's most beautiful park systems, and are easily accessible by all means of transportation. While removed from the noise and confusion of the business district and in a quiet location conducive to good study, the school is within ten minutes walking distance of the leading concert halls, including Symphony Hall, Jordan Hall, and the Boston Opera House. Also in the vicinity are churches of all denominations, the Boston Public Library, and the Boston Museum of Fine Arts.

The educational policies of the Boston Conservatory are formulated by the trustees in cooperation with the director and faculty. The faculty is composed of more than fifty experienced musicians and teachers many of whom are of national and international repute. Limited enrollment affords students the benefits of close contact with faculty members and of small class groups in which each student is assured the necessary individual attention. The Conservatory is approved for the training of non-quota foreign students and Veterans under Public Laws 16 and 346.

Authority to grant the degree bachelor of music was obtained in 1938, and the degree bachelor of fine arts in 1951. Students graduating with the degree bachelor of music are admitted to the Graduate School of Arts and Sciences of Harvard University and in Radcliffe College on the same terms as graduates of institutions that have been approved by the Association of American Universities.

Whether preparing for a professional career, or studying as an avocation, the student finds in Boston opportunities for the enhancement of his musical and general culture which are unsurpassed anywhere in the United States. The concerts of the internationally famous Boston Symphony Orchestra and other orchestras, chamber music concerts, opera performances, and recitals of distinguished artists are invaluable in broadening the student's knowledge of musical literature, developing his critical faculties, and imbuing him with an appreciation of the highest standards in music and its performance.

The Conservatory Silver Medal is awarded upon graduation to candidates for the degree who have maintained honor grades throughout their courses.

PRACTICE ACCOMMODATIONS

Practice rooms are available to all resident students of the Conservatory at moderate fees. Privileges will be extended to non-resident students for practice of subjects studied at the Conservatory when schedules and accommodations permit. The Conservatory rates range from \$4 to \$10 per month, depending upon the number of daily hours and the instrument. Organ practice rates are 25, 40 and 50 cents per hour.

LIBRARY

The Library contains a carefully chosen selection of books on music, drama and dance, and a representative collection of orchestra scores, operas, chamber music and standard instrumental and vocal literature. It also includes the necessary reference books for the daily use of students in music education and academic subjects. The record library contains a wide variety of representative recordings. All full-time students of the Conservatory are accorded the privilege of borrowing books from the Boston Public Library, which contains one of the largest musical reference libraries in the country.

EVENING INSTRUCTION

The Conservatory is open evenings for the convenience and benefit of those who are unable to attend during the day. Instruction in all subjects is available with regular faculty members. Evening students are accorded the privileges of examinations, participation in recitals, and other school activities.

SUMMER INSTRUCTION

Instruction in various subjects offered at the Conservatory is available throughout the summer. Credit towards degree, diploma, or certificate requirements may be obtained by summer study. Summer work, when pursued in addition to the regular school year course, offers to students the opportunity of continuing their studies uninterruptedly and thereby accelerating the completion of their courses.

SCHOLARSHIPS

The following scholarships afford financial assistance for a limited number of students who show evidence of exceptional ability and are unable to pay the costs of tuition. Scholarships awarded to students are continued to the end of their courses, provided that they are availing themselves to the full measure of their advantage. The amount of each award is determined by the financial status of the student.

Preparatory Department

The Preparatory Department of the Boston Conservatory of Music is open to both children and adults who are desirous of obtaining thorough musical training in the elementary grades. All instruction is given by regular members of the faculty and their assistants. The courses are designed to prepare students to qualify for admission to the degree, diploma, or certificate courses, and to provide instruction for others who may have only an avocational interest in music and wish to participate in this form of art expression.

Instruction is offered in voice, pianoforte, and all orchestral instruments. Courses in elementary theory, sight-singing, and ear-training are also given, and must be taken by those students who are preparing for admission to the courses leading to graduation. Students, interested in drama and dance, may refer to the respective departments elsewhere in the catalog for a description of the work offered.

The length of time required for completion of the work prescribed in the different preparatory subjects cannot accurately be estimated, as much depends upon the age, ability, and interest of the individual student, as well as the subject and number of lessons taken weekly.

For the purposes of classification and examinations, the course material used in the instrumental subjects is outlined in two parts; that of voice, one part. Instructors may, at their discretion, substitute other material equivalent to that outlined, according to the needs of the individual student.
